

INDOOR LIGHTINGS

DIMMABLE LIGHT BULB SERIES

FEATURES

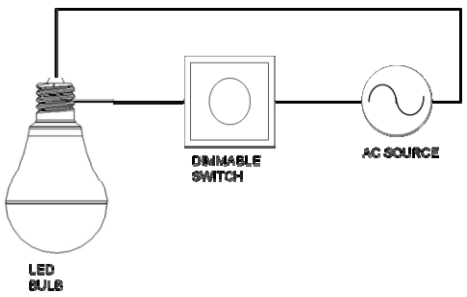

- High quality aluminum alloy case cause best cooling effect.
- The same size as traditional bulb and convenient to replace
- Energy saving more than 85% to traditional bulb
- Equipped with traditional LED constant current source with wide input voltage and high power index to ensure the stability of the bulb.
- High brightness and high color index
- No starter therefore no flicker and impact resistance effectively protecting the light from damage.

APPLICATION

- Stages
- Restaurants
- Home
- Office
- Industrial lights

WIRING DIAGRAM

Specification	DP-B60-5*1W	DP-B60-5*1W
Power Consumption	6.5W	
Dimension (mm)	Φ60XH107	
Input Voltage	AC85-265, AC110, AC220	
Power Factor	>0.9	
Color Temperature	2700K-6000K	
Light Base availability	Light base is available in E27, GU10	
Total Lumens	400±20 lm @6000K	
CRI	75	
Net Weight	125 g	130 g
Dimmable Range	1% - 100%	
Operating temperature	-20°C to 55°C	
Adaptable Humidity Range	0 – 90%	
Storage Condition	-30°C ~ 80°C
